

## EARRINGS TOO TIGHT?

Place your MagicBax™ on a flat surface like a table and insert a credit card, or even your fingernail between the two backing clips then put on your MagicBax™.

## EARRINGS TOO LOOSE?

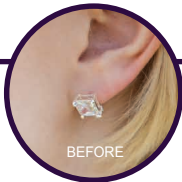

Give your MagicBax™ clips a pinch to tighten to your liking then put on your MagicBax™. If further tightening is required, you can use needle-nose pliers very gently and in small steps to increase the tension. Be careful not to crush the shape of the clutch itself while tightening.

### Using the MagicBax™ Earring Backs

1

Slide the earring back onto the earring post as you normally would, with the flat back facing your earlobe.

The heart-shaped end should face upward. Adjust until the desired lift is achieved.

2

### MagicBax™ tips

- The silver MagicBax™ earring backs are 100% sterling silver. Clean with jewelry or silver cleaner as needed.
- The gold MagicBax™ earring backs are gold-plated sterling silver. Use jewelry cleaner as needed.
- Store MagicBax™ earring backs in their storage case when not in use.
- Not intended for children under 15 years of age.
