

# Night Angel™

## INSTRUCTIONS

**IF YOU ARE UNSURE OF ANY PART OF THESE INSTRUCTIONS, PLEASE CONSULT A LICENSED ELECTRICIAN BEFORE INSTALLATION.**

**BE SURE TO READ ALL INSTRUCTIONS BEFORE FIRST USE. FAILURE TO FOLLOW THESE INSTRUCTIONS CAN RESULT IN ELECTRICAL SHOCK, FIRE, PERMANENT INJURY OR DEATH.**

### **WARNING:**

Failure to turn OFF the power source prior to installation/removal of Night Angel™ can result in electrical shock, fire, permanent injury and/or death.

### **BEFORE INSTALLATION**

Before removing your existing cover plate, turn off the power on your circuit board panel to ensure your power is OFF. (Illust.1)

### **INSTALLATION**

**Step 1:** Remove the existing cover plate from the outlet using a screwdriver. (Illust.2)

*NOTE: To ensure proper installation, make sure the screw terminals inside the electrical box are free and clear of the Night Angel™ prongs. (Illust.3)*

**Step 2:** Hold the Night Angel™ (with the prongs facing outwards) and place over the outlet, then slide the prongs into the electrical box. (Illust.4)

*NOTE: The prongs should slide around the side screw terminals in the outlet box to contact the lower screw heads for power output. Do NOT FORCE or try to squeeze.*

Prongs MUST ALWAYS fit into the electrical box with enough space between the sides of the outlet and the electrical box. Failure to do so can result in damage to your Night Angel™, arcing and/or an electrical system malfunction.

**Step 3:** Push Night Angel™ flush to the wall and secure with a screw.

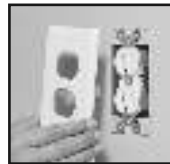

- TURN POWER BACK ON from your circuit board panel (Illust.5)
- Your Night Angel™ is now ready to use.
- The built-in light sensor will automatically illuminate at night, and turn off during the day.

### **CAUTION:**

- Installation of Night Angel™ should be in accordance with applicable electrical codes and regulations.
- Keep out of reach of children and pets.
- DO NOT put fingers into an electrical box when power is ON.
- DO NOT put tools into an electrical box when power is ON.
- Night Angel™ should be used in a dry location ONLY.
- Night Angel™ should NOT BE USED on an outlet where there is more than one branch circuit.
- Night Angel™ should NOT BE USED on an outlet where one receptacle is always on and one is switched ON and OFF
- DO NOT USE Night Angel™ on DC to AC converter systems.
- Night Angel™ should be used on a permanently installed Duplex or Décor style outlet with side screw terminals.
- Night Angel™ WILL NOT WORK on GFCI outlets, switches and other outlet families.
- To avoid the risk of fire, DO NOT USE Night Angel™ where it can come into contact with curtains, tablecloths, bedding or other fabrics.

DO NOT USE NIGHT ANGEL™ WITH ELECTRICAL BOXES CONTAINING TELEPHONE DATA OR TV ANTENNA CIRCUITS.
