DO NOT IRON. DO NOT DRY CLEAN.

### Material Content

91% Polyester, 5% Nylon, 2% Metallic, 2% Rubber

### Instructions

1. 35° BELOW SOCKS are designed to help keep feet warm. The aluminized fibers are concentrated in the toe and foot area and discreet enough to be worn with closed toe shoes.
2. Put on one sock, making sure the aluminized fibers on the toe and heel seams fit comfortably and are properly aligned. Repeat step on opposite foot.
3. For additional warmth or comfort, you may use 35° BELOW SOCKS as a sock liner. Simply wear your regular socks over 35° BELOW SOCKS.

NOTE: Slight fraying may occur on the aluminized fibers, after laundering. This is completely normal. Trim the aluminized fibers; DO NOT pull the fibers.
